THE RAILROADS.

ANOTHER BLOW STRUCK.

Another blow has been struck at the Canadian Pacific by the Chicago-St. Paul roads. At this season there is always an exodus of farm laborers from Ontario and Eastern Canada to Manitoba and this year it is larger than ever before. Over 3,000 passengers have been hauled in one week. Formerly the Canadian Pacific had a monopoly of the business. It was able to load up its trains with eighty passengers to the car. Now the American lines have gone in, and have succeeded in diverting a large amount of the business via Chicago and St. Paul.

A BIG DEAL COMPLETED.

It is semi-officially announced that, to all intents and purposes, the Big Four deal has been completed. The control of Monon stock has been bought, and such an understanding with the Cincinnati, Hamilton & Dayton people has been reached as to leave only details of arrangement. In the deal the Big Four will figure as the head of the new combination. In regard to the Monon only the control of the stock has been bought, but it is stated that full provision will be made for minority holdings in the new combination.

FREIGHT RATE CUTTING.

Cutting of freight rates to the Eastern seaboard is still going on. The lines running out of St. Louis are promptly meeting all cuts made by way of Kansas City and Chicago, and a

Hidden Weakness.

Just as we sometimes see a tree or pole apparently strong and sound come rushing down with a sudden crash because of some undetected process of decay, so no matter how good an appearance a woman may present, if she is subject to any hidden weakness, gradually she will be losing her vitality, some day her entire constitution will give way and leave her a prostrate physical wreck.

The average doctor gives a little something for the headache and a little something else for the backache and still another thing for the nerves and so on, never once reaching the hidden weakness in the distinctly feminine organism.

The vast experience and special practice of Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., in treating women's diseases, enables him to understand and cope successfully with these particular ailments. Any woman may feel the utmost confidence in consulting him by mail. She will receive, free of cost, sound professional advice whereby her health may, in ninety-nine cases out of a hundred, be promptly and permanently restored. All correspondence is held to be strictly confidential.

A lady living in Coshocton Co., Ohio, Mrs. W. T. Stanton, of Milford, writes: "I had been very weak for nearly three years. Had dragging down pains in and above my hips and such dreadful pains in the back and too of my head (just as though some one was beating me). I had no ambition, would try to work a few days then would have to lie in bed for a long time. No tongue can express the suffering I endured. I had much pain at monthly periods. I doctored most of the time with as good a physician as there is in the state, but had no case until when I was quiet and of my feet and had more or less pain in my head. When I began taking Dr. Pierce's medicines I weighed 10 pounds and was very pale and weak. I took twelve bottles of the 'Favorite Prescription' and seven of the 'Golden Medical Discovery.' Now I feel like a different person. Have no pain in my head, can do all the work for myself, husband and child are gainers and I feel it is through God's mercy and your wonderful medicines that I am cured."
